

PET First Aid Kit Checklist

Disclaimer: *I am not a veterinarian and there may be additional items that you would like to add to your First Aid Kit.* There are kits available for purchase online, some more comprehensive than others. We built our kit by purchasing the individual items and divided into 3 Pet First Aid Kits; 1 for home, 1 for the car, 1 for travel. The items listed are what we keep in our kit & I believe will cover most incidents until we could reach a professional veterinary clinic.

<input checked="" type="checkbox"/>	Item	Quantity
